## PROJECTS

### Assigntist.io — Meetings-to-Tasks Platform

[Live](#) · [GitHub](#)

React 18 · Vite · Tailwind · Supabase · n8n · MCP · Trello API · Vexa

Final Year Project (FYP)

- Vexa-powered bot joins live meetings, captures real-time transcripts, and auto-extracts action items via Gemini summarization — no manual note-taking
- Pushes tasks to Trello through a custom-forked MCP server (28 tools) with bulk push, status filtering, and soft delete; Google Calendar triggers keep meetings synced

### HomeMaid — Domestic Worker Marketplace

[GitHub](#)

React Native · Expo · Node.js/Express · Supabase + PostGIS · Gemini 2.0 Flash · Google Maps

Team project — AI Seekho Google Antigravity Hackathon

- Uber-style two-sided marketplace connecting homeowners with maids; a Gemini-powered agent parses voice or text requests and matches nearby maids via PostGIS geospatial queries
- Real-time competitive bidding over Supabase Realtime, with a full booking lifecycle from pending to completed

### iDesk — AI Voice IT Helpdesk Agent

[Live](#) · [GitHub](#)

React 18 · Vite · Node.js/Express · Retell AI · GPT-4.1 Nano · n8n · Vercel

- Voice AI agent that triages IT issues via natural conversation — categorizes, diagnoses, attempts fixes, and schedules callbacks autonomously
- Serverless Express backend handles Retell token auth; post-call n8n pipeline logs tickets to Google Sheets and sends Gmail confirmations

### PainPals — AI Chronic Pain Management App

[Demo](#) · [GitHub](#)

React Native · Python/FastAPI · Google Gemini API · Firebase · Google PSE

Team project — Google Solution Challenge (GSC) submission

- Cross-platform mobile app providing AI-driven lifestyle recommendations, ergonomic suggestions, and diet guidance for chronic pain sufferers
- Gemini-powered chatbot for symptom discussion; pain logging with analytics, pattern detection, and community peer support forum

### Marketeer AI — Meta Ad Campaign Generator

[GitHub](#)

React · TypeScript · Vite · shadcn/ui · Supabase · Google Gemini · Tailwind CSS

- AI platform that generates complete Facebook & Instagram ad campaigns — targeting, budget allocation, creative direction, and campaign structure
- Supabase handles auth and database; Edge Functions run serverless Gemini AI logic
